Showcase colours at their best
in just one glance.

How do you present a colour collection so impressively that jaws drop? Simple: with the SHADE PARADE by Omega-Skinz.

SHADE PARADE

This display blends sleek design with functionality, ensuring every colour gets the attention it deserves.

Crafted from sturdy 6mm Di-Bond, the display is securely mounted using an aluminum spacer frame on the back. The 28 precisely placed holes hold small bolts where the shapes hang freely. This allows you to effortlessly take a colour sample and show it directly to your customer.
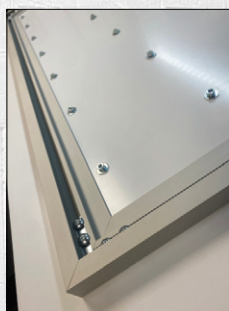

Comes complete, including molds.
Packed per display in cardboard.
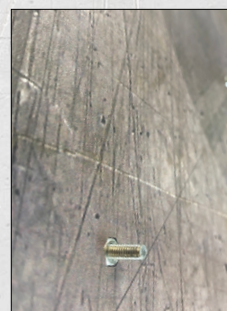

Size: 55 cm x 96 cm
Shapes included

The SHADE PARADE display hangs 18mm from the wall, creating an elegant effect.

Strong anodized aluminum hanging frame on the back.

The 'hanging hooks' consist of Allen screws, washers, and nuts that fit perfectly into the premilled holes.

The 'hanging hooks' are small protruding bolts.

The included shapes are placed loosely over the screws.
