

THIS IS  
OMEGA SKINZ

OMEGA SKINZ  
IS MORE

Wrapped by: Shield Detailing & The Wrapbox, Netherlands

THE NEW "MATT"

Our matt colours have a completely different look than any other wrap film in the world. The matt top layer is somewhere in between satin and matt. This gives curves and corners a shine that will amaze everyone.

Wrapped by: DRS Customs, Netherlands

MODERN CONTEMPORARY COLOURS

Look around you and notice that colour trends are changing. We lead the way when it comes to colours. Whether a car, a company vehicle, motorcycle or superyacht needs to be wrapped, the colours of Omega-Skinz fit exactly in today's times.

Wrapped by: Monkey Design, Netherlands

MORE COLOUR DEPTH

Our colours are an experience. The colour depth, the underlying pigments and the special construction bring the film to life. The contours of the vehicle stand out even more and provide a wow effect.

Wrapped by: Team OS, Belgium

MORE STABLE AND STRONGER

Because several layers are cast on top of each other during production, the film is more stable and retains its shape better during processing. This is ideal for large areas.

Wrapped by: DH Druckservice, Germany

EASY TO APPLY AND CORRECT

Due to the unique construction of the film, in combination with the special adhesive, the film can be easily applied on both concave and convex surfaces. Releasing easily for correction and repositioning is no problem. The film does not break or distort.

Wrapped by: Wrap My Ride, Netherlands

2 OR 3-PASS CAST PVC FILM

Omega-Skinz is cast multiple times, in order to obtain the most beautiful colours. This creates more colour depth in all layers and the top layer also remains intact when the film is mounted and deformed.

Wrapped by: Itza-wrap.com, Netherlands

EXCLUSIVE PATTERNS AND EFFECTS

Developments at Omega-Skinz are advanced much further than the competition. For example, there are films with exclusive patterns and effects that create an incredible look on a vehicle. Find out for yourself and you will be amazed.

OMEGA-SKINZ COLOUR BOOK

The best way to present our colours, is show them like a car paint palette. This very exclusive book shows all the available colours in a blink of an eye.

OMEGA-SKINZ SUPPORT KIT

Each full roll of Omega-Skinz wrapping film contains a package with sales support products such as a mirror hanger, 3D domed labels and an inspiration booklet.

OMEGA-SKINZ DISPLAY

Show all Omega-Skinz colours in your showroom. This large lightweight display lets your customer see all available colours quickly and easily.

OMEGA-SKINZ FILM STUDIO

The futuristic launch pad of Omega-Skinz is located in the factory in Belgium. All new colours are presented, filmed and photographed there.

OMEGA-SKINZ MERCHANDISE

Omega-Skinz is a brand with style. This is reflected in our merchandise. T-shirts and caps are available in various sizes and designs.

OMEGA-SKINZ TRAININGS

Omega-Skinz wrap trainings are given by experienced trainers & wrappers who teach you all the tricks of the trade. Take the 'Rookie', 'Veteran' or 'Overlord' training.

CONDITIONS OF SALE

The following is made in lieu of all warranties expressed or implied:

The information mentioned in this product data sheet is based upon tests that were executed by Grafiwrap and SOTT, and which we consider to be reliable. The information always represents an average, a minimum or a maximum value and should be considered as such. They are for informational purposes only and do not provide any warranty. It is up to the user to decide whether the product is suitable for his specific application. The outdoor life expectancy applies to outdoor use under Central European conditions and with vertical application. Non-vertical applications can reduce service life by 50%. The life expectancy of our films is based on professional application on a dry, grease-free and suitable surface. Tropical conditions or use in close proximity to chemical emissions may adversely affect the service life. The lifespan can also be different depending on the colour (due to pigmentation). More information about this in our warranty certificates. OMEGA-SKINZ wrapping films may only be applied to an undamaged, original layer of lacquer. Grafiwrap cannot be held liable for damage during application or removal, if the films are used on a non-original or afterwards applied lacquer layer. Subject to change.

# The end of anything else...

OMEGA-SKINZ™ wrap series is a high-quality cast PVC wrap film. This soft, flexible PVC film has special properties, but one of its main selling points is the possibility to manufacture it in virtually any colour, optionally even with the same colour depth of exclusive automotive paints. OMEGA-SKINZ™ wrap series is extremely conformable and ideal for automotive as well as industrial and marine applications.

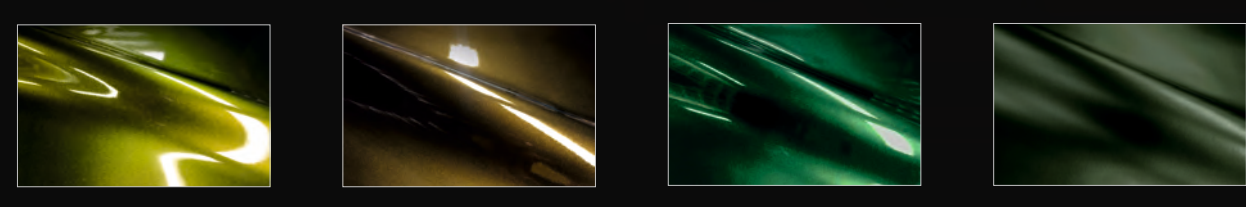

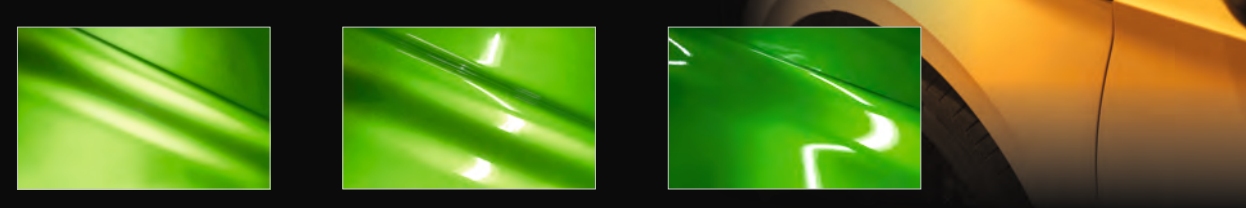

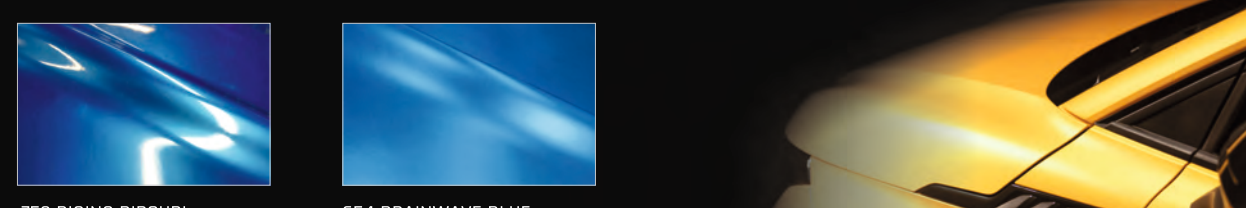

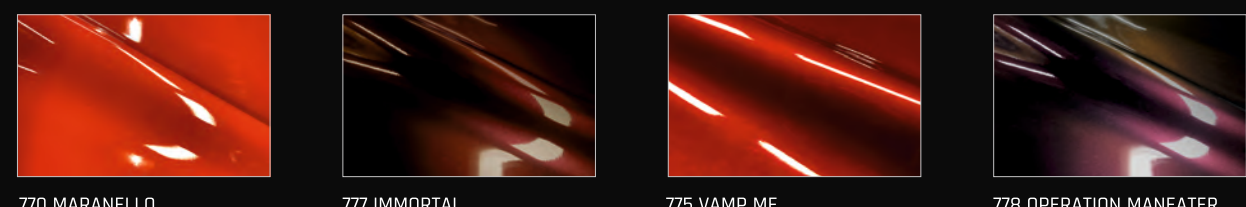

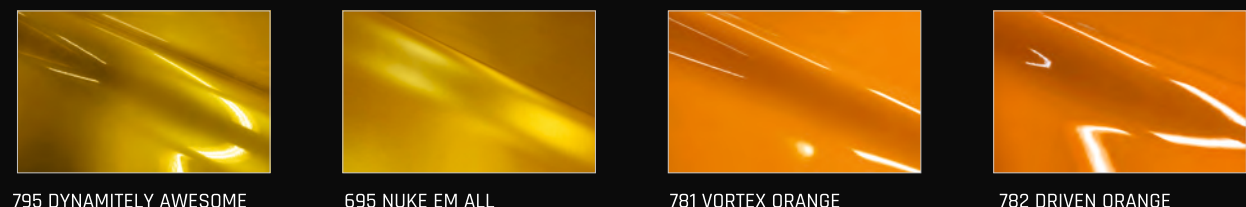

<b>Roll width:</b>	1525mm (60")	<b>Roll length:</b>	20m (21.8 yd)
<b>Facefilm:</b>	Multi-cast PVC	<b>Thickness:</b>	100-140 micron
<b>Adhesive:</b>	Pigmented acrylate solvent with ICS™ air channel system
